

The Federal Communications Commission

Dear The Federal Communications Commission,

Please reject any flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I rarely use either my cell phone OR my home phone; I subscribe to the service for emergencies only. A flat fee system seems eminently unfair to me since those of us who make few (or no) calls would pay the same as people or businesses that make many calls.

I use my wireless phone only for emergencies. I don't want to lose this service so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Thank you for your time.

Sincerely,

Karen Saupe
